

**Antique Flower Basket** \$85 8 hrs Intermediate  
Width: 13” Height: 24” not including stem  
Anne Bowers

This basket is a remake of an antique basket given to me. Beginning with a hand-turned wood finial, students will learn how to attach spokes, weave with flat and round reed, then fold the front of the basket down. Rim has a rolled border and hanger. Students may paint their basket at home, but paint is not included in class.

**Adagio** \$58 8 hrs Intermediate  
Length: 7” Width: 5” Height: 3-3/4”  
Flo Hoppe

Adagio is a smaller oval basket woven with No. 4 spokes and No. 2 weavers. The sides are woven with Japanese weave using double weavers. The focal point of the basket is the top bank of diamond weave woven over smoked flat oval reed. The 4-row rolled border is worked over a No. 6 core.

Candace Katz

This versatile little basket starts on an oval ash base and uses two beautiful hand carved swing handles. Basic weaving techniques make this a great beginner basket and the addition of space dyed reed adds to the character.

**Paragon** \$48 Intermediate  
 Diameter: 12" Height (w/o handle) 5"  
 Candace Katz

Paragon uses a slotted round base with an attached handle. The elements used to enhance the basket are lattice weaving over a walnut strip and the addition of augmented butterfly knots. Color choices will be available.

I will share ALL things concerning White Oak, from how I select my trees to the preparation by hand using homemade tools to the Owens method of rimming. It will be woven on a mold and everyone should leave with a FINISHED basket!

**Larry's Treasure** \$60 Poplar \$75 Oak

 Elaine Sinclair

Students may choose a poplar or oak frame by contacting teacher after receiving your class confirmation. This is a beautiful keepsake. 2-2 twill on sides and a 3 diamond design on the lid. Students also need to select cradles for holding two wine bottles or not. Very, very nice!
